Definition of Bullying:

“Bullying...is a pattern of repeated aggressive behaviour, with negative intent, directed from one child to another where there is a power imbalance.” – Dr. Dan Olweus

Bullying

- Is done on purpose, intentionally causing intimidation or harm;
- Often seems to happen for no reason;
- Keeps happening – or feels like it could happen again at any time;
- Makes the person who is bullied feel overpowered or scared;
- May leave victims feeling like they can't talk about it to anyone;
- Can't be solved without adult assistance.

Not all fighting, name-calling, or threatening behaviour is bullying.

It is important to take everything into consideration – the type of behaviour, the intent of the child doing the bullying, and the relationships of the children involved in the incident – and teach children to do the same, before defining an incident as bullying.

We are making a difference when everyone speaks up against hurtful behaviour and reports bullying, harassment and intimidation to school staff and other adults.
